Brass studs isolate speaker from vibration

Pillars can be filled with shot or sand for exceptional stability

The ultimate level in sound.

Raise your AV system's acoustic performance with Sanus Systems' Ultimate Speaker Foundations®. Our quest for the sweetest sound began with a custom base, designed to reduce vibrations. Next came a support of three large-diameter steel pillars for added weight and resistance to vibration. We finished with an ultra heavy-gauge steel top plate complete with brass isolation studs. The result is clean, clear sound for ultimate audio perfection. www.sanus.com

Hi-tech poly-mineral composite base reduces vibration

Neoprene gaskets isolate speaker from ambient room vibration

High-strength custom carpet spikes create stability

Cork damping rings absorb acoustic resonance
