

SANUS®

TRILLIUM SERIES FURNITURE

Introducing **Trillium**

Fine Media Furniture

With its trendy aesthetics and ability to support tons of gear, the SANUS **Trillium Collection** is the perfect combination of beauty and functionality. Our two Trillium Collection cabinets make beautiful additions to any living room, bedroom or media room.

Features include ample storage space, integrated cable management, built-in ventilation, and the ability to easily hide soundbars without affecting sound quality.

You'll Love the Trillium Collection

The **Trillium Collection** is packed with features to help your media equipment perform to the best of its ability.

▲ **Designed for Today's AV Gear**

In today's world, we have a lot of media gear. We want our gear to operate well and look good in the process. This is exactly why the **Trillium Collection** is built to conceal soundbars, media players, and any number of other components without impacting performance. Cables can be neatly routed through numerous cable pathways, and hidden compartments keep smaller components like wireless routers out of sight, yet conveniently accessible.

▲ **Easy Access to Components**

If you love to change out gear like we do, you will appreciate our AV-specific features. Removable back panels allow for simple wiring and easy access to all of your components. The side access panels provide hidden storage and easy access to devices like wireless routers, switchers and power strips.

▲ **Built-in Ventilation**

Vented internal shelves and doors with metal grills keep your gear cool for optimal performance and ensure remote control signals will pass through without a hiccup.

Trillium53

53" Media Cabinet — Supports flat-panel TVs up to 60"

Conceal a 40" soundbar or up to four AV components while featuring a 60" flat-panel TV on this beautiful cabinet. The cabinet's deep, ventilated shelves keep components organized and cool for optimal performance. Available in dark cherry and walnut finishes.

52.6" W x 21" D x 22.5" H

Configurable Assembly

Holds a 40" soundbar or up to four media components, plus a 60" flat-panel TV.

Hidden Storage

Vented doors provide cooling while creating a greater level of concealment

Generous Storage

Side compartments are designed to store gaming systems, small components and DVDs

Asymmetrical Design

Trendy design offers a refreshing new look for showrooms

Unique Steel Panels

Vented doors allow airflow through cabinet without disrupting IR signals

Trillium63

63" Media Console — Supports flat-panel TVs up to 70"

This extra wide console holds the largest media components, including flat-panel TVs up to 70".

The metal grill doors provide a safe barrier from pets and children while complementing the components they protect. The grills are open enough to provide ample cooling, allow IR signals to pass through, and hide soundbars and speakers without affecting sound quality.

63" W x 21" D x 22.5" H

Configurable Assembly

Large versatile storage space accommodates sound bars up to 40" wide or two additional components

Hidden Storage

Vented doors provide cooling while creating a greater level of concealment

Generous Storage

Side compartments are designed to store gaming systems, small components and DVDs

Symmetrical Design

Functional AV cabinet features are wrapped into a stunning work of art

Unique Steel Panels

Vented doors allow airflow through cabinet without disrupting IR signals
