

# On-Wall Shelves

## FOR IMPROVED AV SET-UP

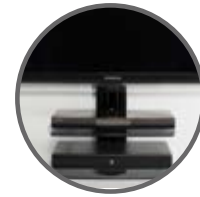

The SANUS Vertical Series VF3012 on-wall component shelves mount directly under wall-mounted TVs, onto drywall, wood studs, or concrete for a sleek and streamlined look – the perfect space-saving option. Easily hold components such as streaming media players, Blu-ray players, or cable boxes (up to 20 lbs on each shelf or 30 lbs total weight) on adjustable shelves and hide cables to keep any AV set-up clean and organized.

Fits nearly all AV components, including small streaming media players, Blu-ray players, and cable boxes up to 20 lbs per shelf

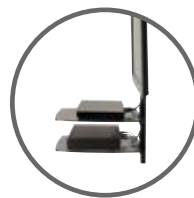

Adjustable shelves can be moved up and down to accommodate components of varying sizes

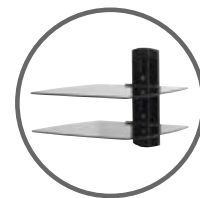

Integrated cable management organizes and hides cables without having to run them through the wall

Fast, easy, and secure installation process – all hardware included

Designed to work well with your mounted TV

The shelving unit includes thick, tempered glass shelves that can support a total of 30 lbs
