

NEW SANUS ELEMENTS™ HDMI CABLES

Innovative cable head design pivots 180° to fit in the tightest of spaces

Sanus Elements™ HDMI 1.3b cable technology ensures high-speed 1080p signal transmission for the highest quality HD images and lossless audio. Available in a variety of lengths, our cables feature an innovation sure to please installers: a head that pivots 180°, making it easy to connect to hard-to-reach ports in tight places and behind TVs mounted on low-profile wall mounts.

ELM410-G1 shown

Flexible cable easily bends to simplify installation

10' cable is rated for in-wall use

Supports 10-bit, 12-bit and 16-bit (RGB or YCbCr) color depths for deep, rich color

HDMI 1.3b technology ensures high-speed 1080p signal transmission for the highest quality HD images and lossless audio

Head pivots 180° for placement in hard-to-reach ports in tight places, and behind wall-mounted TVs with under an inch of clearance

Gold-plated connectors optimize signal transfer for the highest quality audio and video
