

### Perfectly Positions TV

Easily adjust height and level after mounting with ProSet™ technology — no re-drilling required

### Smooth Tilting Motion

Adjustable Virtual Axis™ technology provides up to 10° of gliding fingertip tilting

Model VLT15

### Easy Cable Access

The innovative ClickStand™ mechanism holds TV away from wall for quick access to cables

# Reduced glare. Reduced profile.

## SANUS VISIONMOUNT® TILTING MOUNTS IMPROVE YOUR VIEWING EXPERIENCE

**FROM THE SOFA, BED OR FLOOR.** Move them up and down. Diminish reflections. Improve picture quality. Take the Super Slim Model VLT15, shown here, which allows up to 10° of tilting, yet also accentuates ultra-thin TVs by placing them just .82" from the wall. SANUS makes a mount to fit any need.
