# ROUGH OUT ACCESSORIES

ELM806 - In-Wall Cable Management

Conceals and routes power & signal cables through the wall

No electrician needed
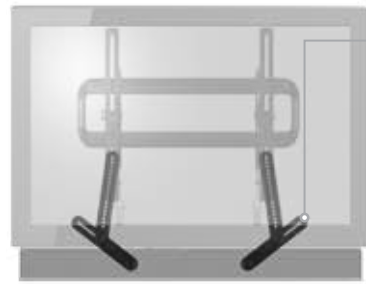

SA809 - Recessed Component Box

Designed for in-wall use with SA206 EcoSystem Mini

Includes three AC outlet spaces

AV ACCESSORIES

SA405 - Soundbar Speaker Mount

Universally compatible with most flat-panel mounts & TVs

ELM501 - All-in-one IR Repeater

Frequency range 30-60 KHz

Control up to four components

ECOSYSTEM™   Simple power source for all low-voltage equipment in a rack. Eliminates the need for individual transformers.

CAPT01 - Multi-Volt Power Supply

FRONT

BACK

Thermostat kit monitors rack temperature and automatically powers and controls fans, task lights and work lights

4 USB Powered ports + 12-12V outlets

Manages low voltage without needing to use large transformers

SA206 - EcoSystem™ Mini

Same benefits of CAPT01

Small enough to be placed in recessed box or behind wall mounted TVs or furniture

SANUS®

PROFESSIONAL SERIES

WHY CHOOSE SANUS?

SAFETY TESTED
Safety is a top priority at SANUS, so our products are held to the highest safety standards available, with most products being UL2442 compliant.

PROBLEM SOLVING
By working side-by-side with professional installers, we've taken real challenges and created practical solutions to any AV installation problems. We're there for you when you need us, with in-house CTS certified agents available to you Monday-Friday from 8am-9pm CST, and Saturday-Sunday from 10:30am-7pm CST at 1-844-655-6125.

PATENTED TECHNOLOGY
From post-installation micro-adjustments using ProSet™ technology, to concealing surge protectors and other small devices directly behind TVs with the ClickFit™ system, our products are engineered to create a flawless look with the fastest installation, every single time.

FUNCTIONAL RACK. BEAUTIFUL FURNITURE.

CADENZA61-CC1 (front)

Interchangeable wood or metal mesh panels included

Integrated racking with 22U spaces (11U per side)

CADENZA61-CC1 (back)

Features built-in ventilation and the ability to add cooling fans, keeping gear cool and running strong

**INSTALLER TIP:** Combine any Cadenza Collection piece with the SANUS EcoSystem™ for an easy, single power source solution for all low-voltage power needs.

SOLID MOUNTS WITH ALL THE BEST FEATURES.
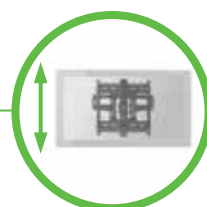

■ FULL-MOTION TV WALL MOUNT

VXF220-B1

Slotted holes on wall plate to accommodate non-standard stud spacing

Height adjustment to ensure perfect wall placement or recessed fit

Complete in-arm cable management

INSTALLER TIP: The ELM806 In-Wall Cable Management system conceals and routes cables through the wall for a flawless look

HIGH PERFORMANCE RACKS.

Entire structure, complete with screws, removable shelves and blanking panels, ships in one box

Self-aligning rack can be stacked using only four bolts for quick and easy stacking up to 40U

Large side panels allow greater customization
