

NEW VISIONMOUNT™ SPEAKER MOUNTS

Model LAS1Ab in use

Models XAS1Ab and VMCC1b in use

LAS1Ab

XAS1Ab

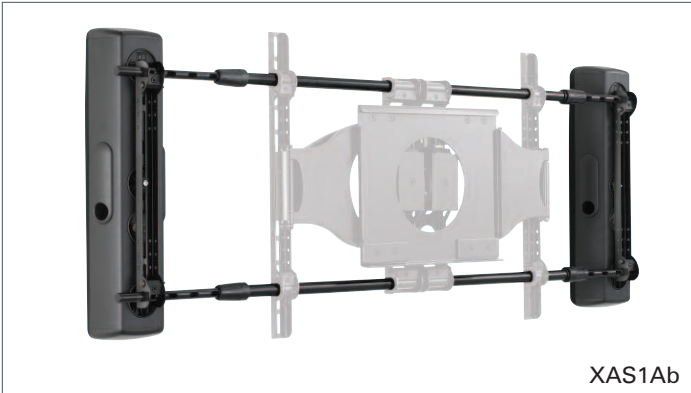

VMCC1b

New VisionMount™ side speaker mounts are a stylish way to save space and improve sound quality

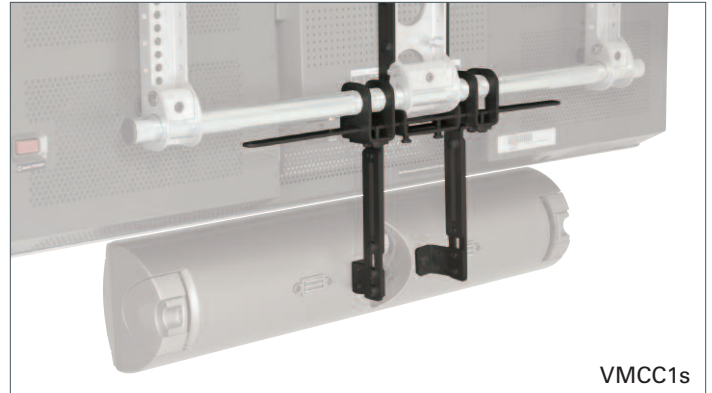

The LAS1A, XAS1A and VMCC1 speaker mounts easily attach to VisionMount large and extra-large full-motion flat-panel TV mounts, allowing the speakers to move with the TV – so the sound is always pointed at the listener. Both side and center-channel speaker mounts feature universal mounting brackets to fit most speaker sizes. Models LAS1A and XAS1A extend up to 12" horizontally and the VMCC1 extends 8" vertically to accommodate a wide variety of TV and speaker widths.

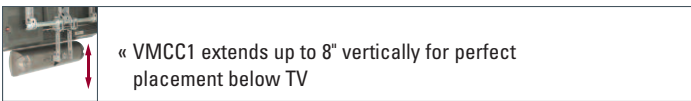

NEW VISIONMOUNT™ SPEAKER MOUNTS

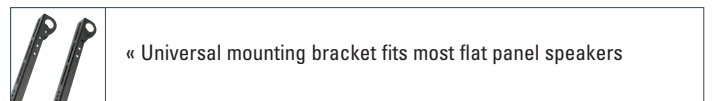

XAS1Ab

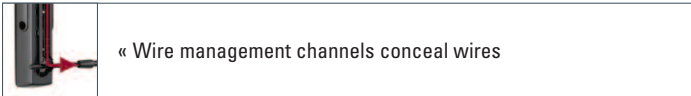

VMCC1s

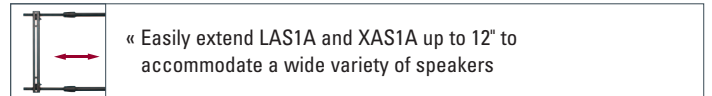

« VMCC1 extends up to 8" vertically for perfect placement below TV

« Universal mounting bracket fits most flat panel speakers

« Wire management channels conceal wires

« Easily extend LAS1A and XAS1A up to 12" to accommodate a wide variety of speakers
