

NEW FOUNDATIONS® COMPONENT SERIES ACCESSORIES

Introducing new fully customizable AV rack solutions

Foundations Component 500 and 100 Series racks were designed to support multiple add-on accessories, allowing you to create the perfect rack for your needs and AV system. 100 Series racks are pre-assembled and support select accessories for a more personalized solution. Component 500 Series rack frames come open and ready to customize for a unique rack tailor-made for your installation.

Fan detail shown

Fan kit keeps components cool, even in an enclosed cabinet

Choose from three locking door options to suit any installation

2U and 4U sliding drawers slide out for easy access to components

1U, 2U and 3U shelves support any combination of AV gear

Model QFR518 shown

1U, 2U and 3U blanking panels maintain consistent airflow to prevent improper cooling or heating
